

## 11 CRYSTAL *transfabric*

Crystal Transfabric is a brand new product representing the fusion of two very successful products: Transfers and Crystal Fabric. This fusion combines the elegance and sophistication of Crystal Fabric with the beautiful hallmark brilliance of XILION Flat Backs. This versatile new product opens up a multitude of creative design possibilities through its numerous application techniques. Crystal Transfabric is ideal for use in the textile, interior and accessories segments.

A special motif is any individual design created by the customer, which is different from the Crystal Transfabric Standard or Trend Collections. This service opens up many customisation possibilities. There is also no need to set a motif by hand. You can rely on Swarovski's longtime experience and design expertise and can order a convenient, ready-to-apply design. A range of customisation options for existing motives is available (see "Customisation Possibilities" below). You may also submit sketches of a design that will suit your special needs – such as a brand image or an image to suit a particular sales campaign or garment. This will then be made up according to your specifications using Computer Aided Design, which allows for easy adjustments according to your needs.

## Conditions for designing Crystal Transfabric

&lt;&lt;&lt;

- Max. size of the motif is 500x210 mm
- Min. size of the motif is 10x10 mm
- Min. width of holes within motives is 3 mm
- Max. surface of Crystal Transfabric without Flat Backs is 15x15 mm
- Min. distance between the Flat Backs is 1.5x1.5 mm

## Customisation Possibilities

&lt;&lt;&lt;

- Change of elements of an existing motif
- Change of size of an existing motif
- Logos or brand names
- Creation of pieces or rows
- Up to five colours/elements possible per motif

## Ordering Process

&lt;&lt;&lt;

Send the request with a drawing you wish to order to your nearest Swarovski sales office. Make sure you include all measurements to the desired motif. Please also indicate which product group your special motif refers to (Crystal Transfabric, Transfers, Crystal-it etc.). You will then receive a quotation including your article number, minimum order quantity, price, and the line drawing of your special motif in PDF format. Please contact your Swarovski sales office again if any changes need to be made. Your special motif will be produced and delivered following your confirmation.

## Please Note

&lt;&lt;&lt;

Please always submit your drawing of the desired motif to represent it in the actual size you require. A small sketch, when enlarged to the desired size, will have blurred lines that will make it difficult to correctly reinterpret. Pictures or drawings representing 100% size of the design or very good quality scans in JPG, BMP or DXF format will ensure that we have clear data to work with. These can also be sent via email or on a CD-ROM. If sending a sewing pattern, please include the whole pattern and not just cut outs. When the sketch is submitted as a hard copy by fax or e-mail, please include a scale legend (e.g. copy/scan with ruler next to the drawing). This will ensure that the desired size of the motif can be identified.

Special productions are generally offered to all our customers if feasibility is given and our General Terms and Conditions are applied. Please note that the simple order of a design does not grant exclusive production of this design to the customer.
